Strategic Planning

The Albany Free Reformed Church Education Association (Inc.) is characterised by a close working relationship between the members of Free Reformed Churches of Albany and West Albany.

Strategic planning within the School Association has primarily been driven by the educational needs of those students enrolled at school. The past is filled with many examples that highlight a sincere commitment to provide for the needs of both teachers and students at school. We acknowledge the Lord's blessings, and remain thankful for a new kindergarten programme, a prosperous fiscal outlook, and the high academic literacy and numeracy results enjoyed by our students.

The development of a Strategic Plan for the School Association presents an opportunity to reaffirm or modify; the Mission of our John Calvin School; why does the AFRCEA exist? What is its purpose? What does it do now? And, what does it want to do in the coming years? This strategic plan is a framework to guide school decisions, facilitate consensus, support and define the key priorities of the entire school community.

The School Committee desires that this Strategic Plan is recognized as a School Association document, and hence all stakeholders will be involved in the ongoing review and implementation of this Strategic Plan.
